# About Us

## Your Trusted Partner in Power & Automation

**Shreetech Control System** specializes in designing and manufacturing world-class electrical control panels, including **LTPCC Panels, MCC Panels, Drive Panels, PLC Panels, AMF Panels, APFC Panels and Energy Meter Panels.**

With years of expertise, advanced technology and a highly skilled team, we deliver solutions that ensure safety, reliability and efficiency across industries. From power distribution to automation and energy management, our panels are engineered to meet global standards and can be customized to suit specific client requirements.

Our commitment to quality, innovation and timely delivery has made us a trusted partner for industrial, commercial and infrastructure projects. We don't just build panels — we build performance, confidence and long-term value.

# Mission & Vision

## OUR VISION

To become a trusted leader in industrial automation and control systems by delivering innovative, reliable, and future-ready engineering solutions that empower industries worldwide.

## OUR MISSION

- To provide high-quality control system solutions with precision, safety, and efficiency.
- To build long-term relationships through trust, technical excellence, and customer satisfaction.
- To continuously innovate and adopt advanced technologies for smarter industrial operations.
- To create a professional and growth-driven environment for employees, clients, and partners.

## OUR VALUES

We believe in professionalism, integrity, reliability and operational excellence, ensuring every shipment is handled with responsibility and customer satisfaction.

## Powering Diverse Industrial Sectors

# Our Products

## LTPCC PANELS

Shreetech Control System manufactures LTPCC Panels custom-built to meet specific load requirements, operational conditions and site layouts. Each panel is engineered using high-quality components to ensure long service life, safety and reliable performance.

- Customized panel design and layout
- Advanced protection against short-circuit & overload
- Safe and efficient power distribution system
- Easy maintenance and future scalability

## MCC PANEL

At Shreetech Control System, we manufacture MCC Panels tailored for various industries including manufacturing, infrastructure, and process plants. Our panels are engineered with precision to ensure smooth motor functioning, reduced downtime and improved system efficiency.

- Centralized motor control system
- Flexible starter configurations
- High safety and operational reliability
- Easy troubleshooting & maintenance

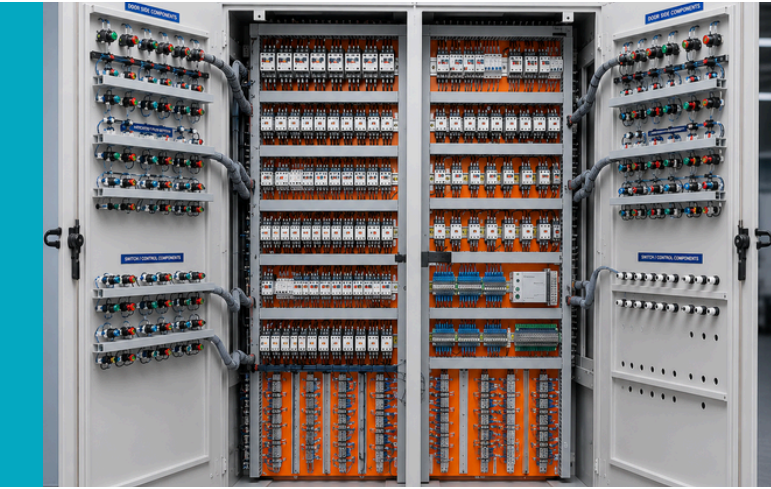

## VFD PANELS

Shreetech Control System manufactures VFD Panels for a wide range of industrial applications where energy saving and process control are critical. Our panels are designed with high-quality drives, protection systems and user-friendly interfaces to deliver long-lasting performance.

- Precise motor speed control
- Significant energy savings
- Reduced mechanical stress on equipment
- Smooth start and stop operations

# Our Products

## PLC PANEL

At Shreetech Control System, we manufacture PLC Panels tailored for automation needs across industries such as manufacturing, water treatment, and process control. Our panels enable seamless integration of machines, sensors, and control systems for improved productivity.

- Automated process control
- High precision & accuracy
- Real-time monitoring & control
- Easy integration with SCADA & HMI

## AMF PANELS

At Shreetech Control System, our AMF Panels are engineered with advanced sensing and control mechanisms that detect power failure instantly and start the generator automatically. Once mains power is restored, the system safely transfers the load back and shuts down the generator.

- Fully automatic mains & DG changeover
- Intelligent sensing of power failure
- Safe generator start/stop operations
- Designed for long-term reliability

## APFC PANELS

At Shreetech Control System, our APFC Panels are engineered to continuously monitor electrical load and adjust reactive power accordingly. This ensures stable voltage, improved efficiency and reduced energy bills. Our systems are designed with intelligent controllers and high-quality capacitors for long-lasting performance.

- Automatic power factor correction
- Reduction in electricity penalties
- Improved voltage stability
- Enhanced overall system efficiency

# Our Products

## ENERGY METER PANELS

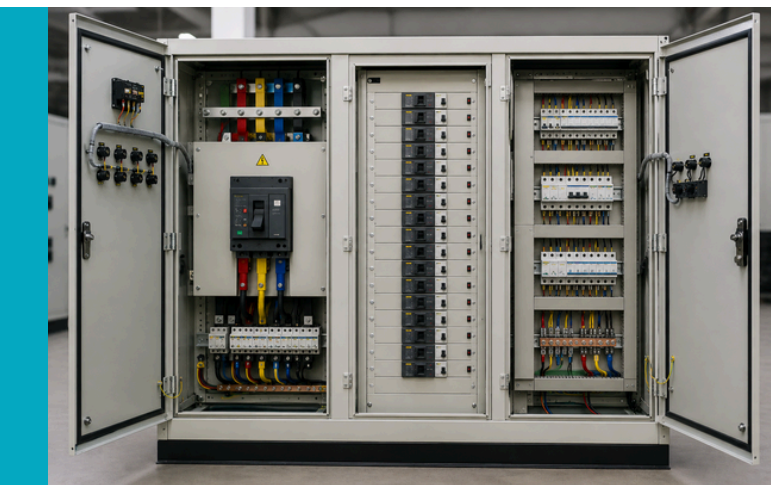

ET Electrotech Engineers manufactures Metering Panels for accurate measurement and power monitoring systems. Panels can be supplied with digital meters, multifunction meters, energy analyzers, CT/PT arrangements and communication options for data logging and remote monitoring.

- Digital / analog meters & multifunction meters
- kWh / kVAh / PF / frequency monitoring
- CT/PT based accurate measurement system
- Communication option (RS485 / Modbus) available

## CONTROL DESK PANEL

At Shreetech Control System manufactures customized Control Desk Panels for industries requiring operator-based control and real-time monitoring. These panels are designed for easy operation, better visibility, safe controls, and long-term reliability in industrial environments.

- Ergonomic design with operator-friendly layout
- Meters, indicators, alarms & annunciation systems
- Push buttons, selector switches & interlocks
- Fully customized design as per plant requirement

## DISTRIBUTION BOARDS

At Shreetech Control System, manufactures customized Distribution Boards suitable for residential buildings, offices, factories, and industrial plants. DB panels are designed with proper MCB/MCCB protection, copper bus bars, safe wiring, and clearly marked outgoing feeders.

- Safe power distribution with circuit protection
- MCB/MCCB/ELCB/RCCB integration
- Copper busbar with proper insulation
- Wall mounted / floor mounted customization

# Our Services

**TURNKEY ELECTRICAL  
PROJECTS**

**PANEL MANUFACTURING**

**ELECTRICAL  
INSTALLATION**

**TESTING &  
COMMISSIONING**

**POWER DISTRIBUTION  
SYSTEMS**

**MAINTENANCE & AMC**

## **WHY CHOOSE US?**

LTPCC, MCC, PLC, APFC & automation expertise

High-quality branded components for safety

Experienced engineers & technicians

Strict quality & safety standards

On-time project execution

# Industries We Serve

MANUFACTURING

AUTOMOBILE

PHARMACEUTICAL

CHEMICAL

FOOD & BEVERAGE

DAIRY

TEXTILE

OIL & GAS

POWER PLANTS

WATER TREATMENT
